My career as a professionally trained celebrant began 5 years ago and has involved funerals, weddings, anniversaries, commitments and renewals.

Trained by both the Academy of Celebrancy and the International College of Celebrancy, I am registered with the Attorney General's Department and continue ongoing professional development.

Experienced for many areas in my community I have worked and volunteered in emergency response, teaching, relaxation therapies and music with several communities including gender diverse, multicultural, elderly, young adults, children and special needs.

Compassionate and respectful, I have the knowledge and understanding to help create a unique, honest reflection of a loved one through an honourable life celebration.
